

Highly Skilled Timber Maker / Joiner

UK — Millimetre

We make original work with meaning — timber structures, furniture, installations and one-off builds. We're looking for a skilled maker to help deliver projects built with care and precision.

What You'll Do

- Fabricate and install bespoke timber work.
- Work with solid timber and manufactured boards.
- Read and work from technical drawings.
- Use woodworking machinery accurately.
- Build alongside a collaborative team.

What You Bring

- A qualification in a timber trade or 6+ years' hands-on experience.
- Strong bench and machine skills.
- Extensive experience with fittings and construction hardware.
- A practical, thoughtful approach.

Why Millimetre

- Purposeful, collaborative workshop culture.
- Work that asks for originality and precision.
- Competitive pay.

Apply

Send your CV and portfolio or examples of work. Please only apply if you fit the criteria.
